

Missouri CCBIS Guide for Merging

November 7, 2018

What is Merging?

If a child starts receiving services while eligibility is being determined, it is necessary to create a private pay child and a sponsor record to track attendance. Once authorized, the primary parent will be added to KinderConnect and the child will have two schedules, one for subsidized care and another for private pay care. You can merge the child and sponsor records from the **Provider > Merge** page.

Merging allows you to track attendance in real time and saves the parent or sponsor from having to backdate weeks of attendance.

When to Merge?

You should merge the child and sponsors records as soon as the child authorization appears in KinderConnect.

How to Merge?

On the main KinderConnect menu, click **Merge** under **Provider** to view all authorized child names.

Click on the radio button next to the name of the **Authorized Child** you would like to merge to generate a list of all **Potential Matches**. If no matching children are found,

click **Show All Children**. Click on the radio button next to the name of the **Private Pay Child** in the **Potential Matches** list that you would like to merge. Click **Next**.

Merge Child

Provider: TAP TEST PROGRAM 148

Click Next to accept the Child Match

Steps: 1 2 3 4
